

# MasterCut

Tool Corp.

World Class Manufacturer  
of Rotary Cutting Tools

## Routers

- Tools for Wood, Plastic, Composite, Aluminum, and more
- Upcut and downcut for special finishes
- High Performance "O" flute designs

# Routers

Upcut Routers    Downcut Routers    Compression Routers    1 Flute "O" Flute    Straight Flute    Slow Spiral    3 & 4 Flute Routers    Combination Spiral    Rippers    Mortise Compression    Fiberglass Routers    **OFX** "O" Flute Extreme

## General Purpose Routers Imperial and Metric

**1 Flute routers** are a great choice for soft materials, providing an excellent finish and are capable of faster feed rates.

**2 Flute routers** work well with harder materials, providing an excellent finish to the material.

- Crescent, Plunge and Endmill points
- "O" flute, Straight cut, Spiral cut
- Upcut routers for excellent bottom finish
- Downcut routers for excellent top finish
- Compression and Mortise Compression routers for superior finish on top and bottom
- Applications include: Softwoods, Hardwoods, Plywoods, Particle Board, Laminated Particle, Aluminum, Soft and Hard Plastics, Composites, Solid/Laminated plastics, Phenolic and Fiberglass

- Ripper, Millend, Finisher and Edge Rounding routers
- Chipbreaker and Slow spiral options
- Designed for high feed rates and high finish
- Highest quality submicron grade carbide

## OFX "O" Flute Extreme Imperial and Metric

- Geometry proven to outperform competitors
- Special flute geometry and edge preparation
- Highly polished fluting improves chip evacuation
- Faster feed rates

## For even greater performance, specify PowerN (nACo) coating

- High nano-hardness increases hardness 2-1/2 X's
- An outstanding heat and oxidation barrier
- Ultra thin coating helps retain a super sharp edge
