FEATURES

- Housing and mechanical components are manufactured from premium grade steel, offering a compact, lightweight, yet exceptionally strong professional grade product.
- DuraShield™ double cover housing for optimum protection of gears, brake, and components from damaging dust, dirt, and grit.
- C-Cure™ safety mechanical brake instantly engages when operation is stopped offering a reliable and safe hold.
- Load chain guide provides smooth operation even at an angle, while protecting the load sheave from dirt and moisture.
- Precision maintenance free sealed bearings increase long-term reliability and reduce pull required to lift loads.
- Abrasion resistant, case hardened load chain is made from heat-treated alloy steel for smooth operation, superior strength, and long-term reliability.
- Marathon-Gears™ are manufactured from premium grade drop forged steel making them extra strong, durable, and corrosion resistant. High precision engineering increases reliability and minimized noise.
- Dropped forged 360° swivelling top and bottom hooks with safety latches help reduce load spin & load chain twist.
- Tested to 150% of rated capacity. Test certificate included with every hoist.
- CE certified and compliant with ANSI B30.16 specifications.
